MEMORANDUM FOR: Chairman, Priority Collection Projects Panel

FROM: Director of Central Intelligence

Thanks for your response to my request for concise information about what the committee is doing, how well it is doing, and how it might do better. How are the briefings to the IPC working out? I am struck that the priority collection projects have not changed since I first became familiar with them more than two years ago. I would think that the new intensified concern about terrorism might be suitable subjects to get this treatment. What do you think?
